

Before and After School Club

Activities

The Early Birds and Evening Owl's Club Manager Mrs Rickerby and her team plan all activities in advance so that 'wrap around' care compliments the school day, as well as the children being able to enjoy well deserved free time to be with their friends in a less formal setting. The well structured activities enable the children to demonstrate what they have learnt in class, amid following our values of kindness and mutual respect, tolerance and taking turns. All of these carefully planned and administered tasks promote acceptable behaviour following our school policy, whilst attending the Club. It is always a pleasure to visit the Club before or after school to witness happy children engrossed in a wide variety of meaningful activities.

Here are just a few of the many different tasks our children love to take part in. Extra sporting activities are always very popular and weather permitting the children often choose outdoor activities. Our 'Gardening Gang' led by Mrs Khatun, make sure that the necessary weeding, tending to and planting takes place so that our herb garden is well maintained.

Thank you to the Club staff who work so hard to ensure that all children's experiences before and after school are positive ones.
