

Creative Curriculum Sharing Event December 2016

At the end of the Autumn term on **Friday 16th December 2016** all classes met as usual for the end of topic sharing event. There was however a different feel to the occasion. Pupils were challenged to act as “experts in their field” and teach other pupils the skills they had learned.

Reception Class and Year 4 had music as their focus and they met to share their compositions and instrument work.

Years 1, 3 and 5 joined together to share what they had found out in History. Year 1 shared work about Toys from the past while Year 3 and 5 talked about life in Ancient Rome and Ancient Greece.

Years 2 and 6 met as experts in Art and Design. Year 6 taught pupils how to use shading techniques to show differences in tone and texture. Year 2 taught the older pupils to use mark making techniques in plasticine.
