

On Wednesday 26th April 2017 Melissa from the Town Hall Education and Symphony Hall Community and Education Team visited Our Lady of Fatima School to provide Year 4 with tips on how to be detectives in preparation for their mystery hunt trip to Birmingham Town Hall on **Wednesday 3rd May 2017**.

Year 4 spent the morning of 3rd May following clues to solve the mystery of the missing organ pipes from the Town Hall. They were met by detectives who informed them that the thieves were attempting to sabotage the building along with all the history it represented. Their mission was to link up clues for the careless thieves. During their work they met people through the ages who were linked to the magnificent Town Hall. There was Joseph Hansom who designed the building, an air raid warden who helped protect citizens of Birmingham during the Second World War and John Lennon who had performed with his group The Beatles on the very stage at the Town Hall.

After successfully linking all the clues the missing tubes were replaced and Year 4 were rewarded with a performance on the organ by a professional organist; the children had the opportunity to dance along to her brilliant music.
