People Who Help Us

On 26th March 2019 Rose's daddy came to visit Reception Class with his ambulance. He is a paramedic and he helps people in an emergency. He let the class look inside the ambulance, where they pretended to drive it,; they even turned the siren on! They also sat on the stretcher and had their hearts checked, were lifted up in a blow up chair and had slings, bandages and neck braces on! Rose's daddy is very clever as he can help in any medical emergency.
