

Frank Chapman Centre

On **Monday 8th July 2019** Year 6 visiting The Frank Chapman Centre for a day of team building activities.

As well as the excitement of a day out of school, they also took part in a number of different activities: den building, fire making, survival skills and orienteering.

In the morning, the children were split into small groups of 3 or 4 and were set the task of building a shelter which was to include a bed and area for a fire. The children also had the opportunity to build and set a small fire using flint and steel.

In the afternoon, the children again were split into smaller groups and completed an orienteering challenge which involved map reading and ensuring the map was the correct way round! The children had to locate different spots around the grounds – the winners were Harrison, Drew and Dontaii with a total of 40 points. Well done!

Overall, it was an exhausting but thoroughly enjoyable day.
