

On Tuesday 2<sup>nd</sup> July 2019 Year 2 were taught tricks of the trade when Stuart the magician shared some magical secrets. They had to concentrate and keep on practising! They made wooden sticks float, moved elastics onto their fingers, outwitted each other with a coin challenge and saw amazing ropes being cut then appear to be whole again, all in front of their very own eyes. Great fun was had by all. Stuart even cast a magic spell to make some sweet treats for us all at the end of the day.
