

# Thinktank Museum

On **Wednesday 19<sup>th</sup> June 2019** Reception Class enjoyed their trip to the Thinktank Museum. They started by exploring the 'Our Amazing Bodies' exhibition and learnt all about their senses. They then attended a workshop session exploring how their bodies work and how they can keep themselves healthy. They pretended to be doctors listening to each other's heart beats. After lunch the children explored the new mini-brum floor, where they were able to race and time each other around a running track, build in the builder's yard and practise their skills in the beauty salon. They ended the day in the science garden, where they particularly enjoyed the water play area. What a busy and fun filled day!
