## Sport Premium Grant

### Background

The Government is providing funding of £150 million per annum for academic years 2013/14 and 2014/15 to provide new, substantial primary school sport funding (the funding may continue after this but this has not been confirmed by the DfE). This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary schools to spend on improving the quality of sport and PE for all their children with the aim of encouraging healthy lifestyles. The purpose of the funding is that schools will have to spend the sport funding in directly improving their provision of PE and sport, although they will have the freedom to choose how they do this.

### Allocation

Funding for schools will be calculated by the number of primary aged pupils (between the ages of 5 and 11) as at the annual census in January 2013.

In 2013 - 2014 this school received two amounts of funding in December '13 and April '14 totalling £ 9, 490.

Two members of the senior teaching staff were identified to lead on Sport Premium development. The intention is to increase the quantity and quality of physical activity for all pupils.

Many of our 'Special Events' reports on the school website show the range of sport activities the children enjoy accessing - have a look!

This is how funding has contributed to enhanced sport provision so far:	Purpose / Impact:
