

On **Friday 21st June 2019**, children chosen by the Science Ambassadors, were able to take part in a 'Moon Landing Day' at Our Lady of St Kenelm's to mark the 50th anniversary of the moon landings. The children from Our Lady of Fatima were involved in a range of activities with other children from different schools within the partnership: Rocket building, Space Dome and Astronaut training!

The children all thoroughly enjoyed the day; learning a lot about space and the moon landing.
